BIGNOSE: THE STORY SO FAR...

On their tiny prehistoric island, a whole village is starving and Thanksgiving is only a few days away! All the big game animals have left - they don't want to be hunted any

more, and the cave clans are getting tired of eating lettuce.

Bignose had heard a legend

about a long forgotten peanut butter mine on the island, and he went off in search of it one warm sunny morning. He hadn't got

far when an enormous pterodactyl flew high overhead...

"WOW! If I could catch that there big birdy then all the people in the village would have enough food for a great Thanksgiving! Forget the peanut butter mine - we're gonna have a roast birdy!" And so Bignose set out on a hunting adventure which will take him over four islands, through perilous caves and even up into the sky!

HOW TO PLAY

SPELLS

HIDDEN FEATURES

Bignose can smash rocks with his club to reveal hidden objects - doing this can often be rewarding. Some rocks need to be hit more than once.

THE HIDDEN SHOPS...

Bignose will have to look hard to find the shops - remember, billboards weren't invented back then! **Super-powerful weapons** can be bought, as well as **bonus lives** and **magic spells**. Try a FAST CLUB to improve your clubbing action, or DOUBLE STONES for a twin shot capability.

THE STATUS SCREEN

Once spells have been bought, you'll need to choose when to use them. When you need a spell, press SELECT to call up the STATUS SCREEN, and then use UP and DOWN to choose what to use. Press A or B to use it, and then START to carry on with the game.

POWERS and SPELLS

Special powers and spells usually last until the end of a stage or until Bignose loses a life and are often best kept for use against the **big boss monsters** at the end of each level.

EXTRAS, BONUSES AND SURPRISES

Explore very carefully! The whole game is jampacked with hidden levels, bonuses and extra features, but none of them will be easy to find!

HINT: If Bignose should fall off a cliff, he can learn the best route to pick up the most bones!

Swap hints and tips with your friends and see who can find the most hidden features!

THE BIG BOSS MONSTERS

At the end of each level you'll meet a big, bad and very nasty boss monster... you'll have to be very cunning and agile to beat them, but it can be done.

FLYING

Bignose uses his club as a helicopter rotor to fly between the islands. Keep pressing your A Button to keep him flying. If you stop to hit a stone he'll lose height quickly, so be careful. Eventually you'll meet our flying friend here and face the ultimate flying challange.

FEATURES

This gruesome monster and its brothers and sisters guard the exit to the cave sections of the islands. Be careful when you come up to

a section of pillars underground. Although this fiend is quick and deadly he is very repetitive and always follows the same route so by careful observation you can beat him.

This Saber tooth tiger can be found in the cold frozen wastes of the high mountains. He used to be Bignoses' pet but he ran away when the food ran out. Now he's gone wild and Bignose will have to beat him to find the bird he's looking for.
